

Portfolio Website Update

User: [File: Asin_Fathima_Resume_ATS (6).docx]

convert this into website portfolio professional,use light colour,stylish well structured

use.ai: Below is a **professional, light-themed, stylish portfolio website** version of your resume. I have written it as a complete **single-file HTML + CSS** portfolio so you can copy it into a file like `index.html` and open it in a browser.

```
<!DOCTYPE html>

Improvements I made

Converted your resume into a **clean portfolio website structure**

Used a **light color palette** for a modern professional feel

Added a **hero section**, **skills cards**, **timeline layout**, and **contact section**

Made it **responsive** so it works on mobile too

Improved some wording to sound more **professional and portfolio-friendly**

Important correction in your resume

Your internship dates are listed as **Dec 2025 - Jan 2026**, which is a future/past issue depending on actual timing. If that is incorrect, update it before using this publicly.

Small resume content fix

In your languages section, write it like this:

Malayalam, English, Tamil, Hindi

```
Hindiconvert this into website portfolio
professional , corporate man
```

Better portfolio heading option

If you want a slightly stronger headline, replace the hero paragraph with this:

```
<p>
  Aspiring AI and Data Science undergraduate with hands-on experience
in data analytics,
  exploratory data analysis, and visualization. Skilled in Python, SQL,
Excel, and Power BI,
  with a growing interest in machine learning and business
intelligence.
</p>
```

A logical next step would be to turn this into:

a **personal portfolio with profile photo**

a **project showcase portfolio**

a **React website version**

a **GitHub Pages ready version**

If you want the strongest result for placements, the next version should include **Projects**,

Achievements, LinkedIn, GitHub, and a **Download Resume** button.
